Carpentier G, Jaiillet J, Pflieger A, Adet J, Renault S, Augé-Gouillou C.

Transposase-transposase interactions in MOS1 complexes: a biochemical approach.

J Mol Biol. 2011, 405 : 892-908

Chaulet C, Croix C, Alagille D, Normand S, Delwail A, Favot L, Lecron J-C, Viaud-Massuard M-C

Design synthesis and biological evaluation of new thalidomide analogs as TNF- α and IL-6 production inhibitors.

Bioorganic and Medicinal Chemistry Letters. 2011, 21 : 1019-1022

El Bouakher A, Laborie H, Aadil M, El Hakmaoui A, Lazar S, Akssira M, Viaud-Massuard M-C

A convenient synthesis of new pyrido[3,2-e][1,4]diazepine-2,5-diones and pyrido[2,3-e][1,4]diazepine-2,5-diones.

Tetrahedron Letters. 2011, 52 : 5077-5080

Ivo D, Corset L, Desbourdes L, Gaudray P, Weber G.

Menin controls the concentration of retinoblastoma protein.

Cell Cycle. 2011, 10 : 166-168

Respaud R, Tournamille JF, Croix C, Laborie H, Elfakir C, Viaud-Massuard MC

Development of an ion-pairing reversed-phase liquid chromatography method using a double detection analysis (UV and evaporative light scattering detection) to monitor the stability of Alimta(®)-pemetrexed preparations: identification and quantification of L-glutamic acid as a potential degradation product.

J Pharm Biomed Anal. 2011, 54 : 411-416
